- Html, CSS, JS, Bootstrap, Tailwind

Language

Khmer : Native

English : Intermediate

About Me

I am a freshly graduated of Computer Science student at CADT-Cambodia Academy of Digital Technology. I love solving problems and coding especially with flutter. In teamwork, I used to develop databases, create user interfaces, write and test codes, and get success in nearly 90% of projects. I'm familiar with mobile applications and websites with Rest API.

Work Experience

Company
using Flutter with Rest API | Sep - 2022 to present

- E-commerce application work with Chat Task (socket)
- The accommodation platform supports multi-platform
- Farm systems that apply the crud method, display and filter data

CADT_Class Assignment
using HTML, CSS, JS, Tailwind, JavaFX, MySql | 2021 - present

- Design Portfolio Website and Web design Template
- Student Management System

Volunteer
using HTML, CSS, JS | Aug - 2021 to present

- Ambassador for Sisters of Code, teaching and inspiring girls to develop digital skills in technology.
- Build online code editor website (Team)
- Explore design thinking skills, user experience, and design flow (Figma)
